

Camp Stove Craft

Materials: 1 piece dark green felt - 4 & 1/2" by 2"

2 small red felt circles - approx. 1/2" diameter

To Make:

Mark the green felt into 4 equal parts. On one centre section, draw on the grill and knobs with a felt pen.

Fold the bottom 3 sections onto themselves and glue together to form the base of the stove.

Fold the last section forward to form the lid of the stove. Hold in place with a line of glue along the fold.

Glue on the red circles for burners. Add a pin to attach to camp hat.
