This educational game teaches kids to think about the possible consequences for themselves and others, based on the decisions they make about their privacy online.

Preparation

- Go through the game yourself so that you are familiar with it before the meeting.

At your meeting

Once the girls have played the game, bring them together as a group and talk about what they have learned. Go through the scenarios presented in the game and have girls discuss what was the best choice in each and why. Discuss why we might be tempted to make unwise choices about our own and others' privacy.
