

**A message from Laurie Lanovaz,  
Provincial Commissioner**

Girl Guide of Canada -Guide du Canada – Saskatchewan Council is honored to present our 2017 Annual Report. Girl Guides of Canada – Guide du Canada - Saskatchewan Provincial Council strives to develop and enhance the supports to engage women and girls to make a difference in their families, communities and in their world.

Much research has been done at the National level in how to continue to be relevant and meet the needs of the girls in our communities. The girl's voice is the core of the organization. To this extent, the Saskatchewan Provincial Council has helped facilitate a Youth Forum, and offered a variety of experiences ranging from Lady BP Weekend for Guides to sending a patrol of 8 girls and 2 Guiders to BC to SOAR 2017.

Guiders are the structure and support of the organization. Thank you to the almost 800 women who volunteer their time as Unit Guiders, District Guiders, and/or hold leadership roles at the District, Area, Provincial or National level. The Saskatchewan Provincial Council continues to strive to support your efforts by providing training opportunities, creating and highlighting superb resources, and establish better and more effective communication

tools so that you can do what you do best – to engage and build relationships with the girls in your communities.

A special thank you goes to the parents and families that support not only their girl member, but the organization. Thank you for entrusting us with your child (or children)

I look forward to an exciting 2018 Guiding year as the GGC enters a time of refresh. It will be a year of change, of new possibilities and more creative and innovative experiences for girls to raise their voices in their communities both local and globally!
